## Introduction

The disaster recovery procedures are a collection of guidelines to be used in the event of any issues surrounding the IT system that impact on a schools ability to continue with the smooth day to day running of an educational establishment.

It is the responsibility of the headteacher and chair of governors to oversee this document.

Copies of this disaster recovery procedure must also be held:

- in the IT Security Folder retained in the bookcase outside the school admin office
- offsite in the offsite IT Security Folder which is held at:

Lorraine Setterfield's home address

Please read this document in conjunction with the advice on **Hampshire IT Schools** website.

## 1. Change control procedures

The document will be reviewed every three years or sooner if applicable, and any changes incorporated will be reflected in a change in version number. In addition the document must be reviewed at any times of personnel change or any other major event that affects the IT Security of the school.

## 2. Declaring a disaster

Major incidents should be quickly escalated to the headteacher or the chair of governors at any time of the day or night. Not all incidents are immediately urgent and disastrous, in which case they should be notified when appropriate.
